Hotel Otavalo - Deluxe room double with breakfast buffet

Hotel Otavalo is located near the center of the city. The hotel has been closed for a long time for renovations; the works were only completed in 2018. Fortunately, the hotel has retained the beautiful style of the original house. However, a modern touch was added to the hotel and all rooms are luxurious and comfortable. There is a lot of art present from famous modern artists. There is a cozy restaurant in the authentic basement where the old vaults have been preserved. There is also a 'roof top' bar with a view of the Imbabura volcano.

This in turn has its advantages.

Hike to Peguche waterfall (on own)

The 18-meter-high Peguche waterfall is located 4 kilometers south of Otavalo in a beautiful natural park... The local population of Otavalo celebrates the solar festival of Inti Raymi there on June 21. During several days purification rituals are held here.
